

## Cancer Awareness and Screening Workshop

A free one hour Cancer Awareness & Screening Workshop for reception and admin staff

### This session:

- Will provide participants with a good understanding of the 3 national screening programmes and an overview of the local coverage data
- Will considered the barriers to screening uptake and provide ideas on how some of these could be overcome
- Will provide participants with an opportunity to identify ways that their practice and role could make a difference
- Will introduce participants to a range of screening information and resources designed to support practices to increase their screening uptake
