Wider Vision

A healthy Southampton for all

Our vision statement means:

Healthy: strong and resilient communities that are supported to maximise their potential to live fulfilling and prosperous lives; underpinned by strong, healthy organisations working together in a climate of trust and open, business-like healthy relationships.

Southampton: our city's future is our purpose, firmly shared with our partners.

For all: we are determined to tackle the unacceptable inequalities in health and wellbeing.

Victor Street Vision

To play our part in delivering “A healthy Southampton for all”.

Providing the best possible quality service for our patients within a confidential and safe environment by working together.

Victor Street Values

Be Healthy

We understand the fundamental importance of health and wellbeing, both as individuals and as a group. Optimal health is a collective effort, and through close support and teamwork, we aim to create a working environment where every member of the team is as healthy as they can be.

Be Ambitious

We are committed to developing and realising our own potential and the potential of others. Every day, we bring an enthusiasm and determination to evolve, both professionally and personally. We come to work with a strong conviction that as a team we can achieve excellent results.

Be Collaborative

We believe that teamwork is essential. Every member of our team is valued, both for the attributes they bring to the job and for who they are as a person. Beyond our team, we are dedicated to our patients and the wider community, collaborating to create a healthier Southampton for everyone.

Be Open

We work in a transparent, inclusive environment in which we seek out and encourage alternative perspectives. From fellow team members to our patients and the wider community, we treat everyone with empathy and respect, taking an honest, non-judgemental approach to every interaction.
